SUMMARY

Senior Salesforce Developer with 7+ years architecting scalable, customer-facing platforms and enterprise integrations across automotive, consulting, and pharmaceutical domains. Deep expertise in LWC, Aura, Apex, Triggers, Flows, and API-led integration, with hands-on experience delivering AI-driven automation using Salesforce Agentforce. Adept at turning complex, ambiguous business problems into reliable, high-performance systems at scale. 5x Salesforce certified.

EXPERIENCE

Senior Salesforce Developer

Sep. 2024 – Present

Volvo Group India Pvt. Ltd.

Bangalore, India

- Independently built an AI-powered Account Insights agent using Salesforce Agentforce and Prompt Builder, auto-summarizing 10 critical account dimensions and reducing manual account-research time for sales reps
- Architected and shipped the Control Center single sign-on (SSO) portal from scratch, unifying Customer Portal, Service Marketplace, Parts, and Aftermarket apps into one login serving 10,000+ dealers and customers globally
- Delivered 25+ production LWC, Apex, Trigger, and Platform Event components at 90% test coverage, reducing post-release defects and enabling rollback-free deployments
- Drove the Volvo Trucks CRM launch across 40 global regions, owning data migration, security configuration, user access, and release activities with zero critical launch defects
- Designed a reusable Apex framework and shared utility library, standardizing logic across 25+ components and accelerating sprint delivery

Salesforce Developer

Apr. 2022 – Sep. 2024

Accenture Solutions Pvt. Ltd.

Bangalore, India

- Engineered a reusable Apex REST framework for real-time cross-org data synchronization, sustaining 99.8% uptime over 24 months and 10,000 transactions/day across 3 Salesforce environments
- Led development of a Google Maps-integrated Lightning feature surfacing store locations, sales performance, and pricing, giving field teams real-time geographic visibility
- Delivered 12+ LWC, Aura, Apex, Batch, and REST components at 90%+ test coverage, simplifying complex business processes
- Built automation frameworks with Batch Apex, Flows, and asynchronous processing, cutting manual processing effort by roughly 40%
- Delivered 3 enterprise REST API integrations including a PCI-conscious payment gateway enabling secure real-time transactions

Salesforce Developer

Jun. 2019 – Apr. 2022

Wipro Ltd.

Bangalore, India

- Built an Order Management & Discounting module in Sales Cloud for a pharmaceutical client, supporting order-processing workflows for 1,000+ sales users
- Developed solutions using Visualforce, Apex, Triggers, Workflow Rules, and Approval Processes, automating business processes and reducing manual effort by roughly 40%
- Designed 20+ reports and 15+ interactive dashboards for self-serve stakeholder visibility into sales performance
- Optimized performance via governor-limit management and secure coding, achieving releases with zero critical deployment failures

PROJECTS

AI Account Insights Agent | *Agentforce, Prompt Builder, Apex*

Volvo Group

- Designed prompt templates and grounding logic to summarize segmentation, hierarchy, contracts, and service-market insights on demand
- Delivered an automated, trustworthy account-briefing experience for sales reps as an early enterprise Agentforce adoption

Control Center SSO Portal | *LWC, Experience Cloud, SSO, Apex*

Volvo Group

- Unified four dealer/customer applications behind a single sign-on portal used by 10,000+ users globally
- Owned end-to-end design, security model, and Lightning front end from the ground up

Cross-Org REST Integration Framework | *Apex REST, Platform Events*

Accenture

- Built a reusable framework with retry and error handling for real-time synchronization across 3 Salesforce orgs
- Sustained 99.8% uptime over 24 months while handling up to 10,000 transactions per day
