SUMMARY

Senior Salesforce Developer with 7+ years delivering high-scale, customer-facing platforms and enterprise integrations across automotive, consulting, and pharma. Proven record of owning systems end-to-end -- from a 10,000-user single sign-on portal to a 99.8%-uptime cross-org sync framework processing 10,000 transactions/day -- and pioneering AI features with Salesforce Agentforce and Prompt Builder. Trusted to translate ambiguous business needs into resilient, secure technical architecture while partnering across engineering, operations, and global stakeholders.

CORE SKILLS

Languages & Frameworks: Apex, Lightning Web Components (LWC), Aura, Visualforce, JavaScript (ES6+), SOQL, SOSL, HTML/CSS, SLDS

Async & Automation: Batch Apex, Queueable Apex, Scheduled Apex, Platform Events, Flows, Approval Processes, Validation Rules

Integration: REST & SOAP APIs, Named Credentials, OAuth 2.0, Bulk API, Composite API, MuleSoft, cross-org / cross-instance integration patterns, Postman

Clouds & AI: Sales Cloud, Experience Cloud, Commerce Cloud, CRM Analytics, Salesforce Agentforce, Prompt Builder, Einstein AI

DevOps & Release: Salesforce DX (SFDX CLI), DevOps Center, GitLab, Azure DevOps, Copado, CI/CD, Data Loader, Workbench, ANT Migration Tool

Practices: Application & data modeling, governor-limit optimization, security & sharing model design, Agile Scrum, stakeholder management

CERTIFICATIONS

Salesforce Certified AI Specialist - Salesforce Certified AI Associate - Salesforce Certified Platform Developer I - Salesforce Certified Platform App Builder - Salesforce Certified Administrator - Copado Fundamentals

PROFESSIONAL EXPERIENCE

Senior Salesforce Developer, Volvo Group India Pvt. Ltd.

Sep 2024 - Present

Bangalore, India

- Architected and shipped the Control Center SSO portal from scratch, unifying Customer Portal, Service Marketplace, Parts, and Aftermarket apps into one login -- serving 10,000+ dealers and customers across global markets and eliminating multi-system login friction.
- Independently built an AI-powered Account Insights agent using Salesforce Agentforce and Prompt Builder, auto-summarizing 10 critical account dimensions (segmentation, hierarchy, contracts, vehicle data, service-market insights) -- sharply reducing manual account-research time for sales reps.
- Delivered 25+ production LWC, Apex, Trigger, and Platform Event components at 90% test coverage, reducing post-release defects and enabling reliable, rollback-free CRM deployments.
- Drove the Volvo Trucks CRM launch across 40 global regions -- owning data migration, security configuration, user access, and release activities -- delivering an on-time go-live with zero critical launch defects.
- Designed a reusable Apex framework and shared utility library, standardizing logic across 25+ components, reducing duplicate code, and accelerating delivery of new features within sprint timelines.
- Hardened platform security by designing role-based access via profiles, permission sets, sharing rules, and sharing sets -- ensuring compliant, least-privilege data access for 10,000+ users.

Salesforce Developer, Accenture Solutions Pvt. Ltd.

Apr 2022 - Sep 2024

Bangalore, India

- Engineered a reusable Apex REST framework for real-time cross-org data synchronization, sustaining 99.8% uptime over 24 months and 10,000 transactions/day across 3 Salesforce environments.
- Delivered 12+ LWC, Aura, Apex, Batch, and REST components at 90%+ test coverage, simplifying

complex business processes and improving end-user experience.

- Led development of a Google Maps-integrated Lightning feature surfacing store locations, sales performance, and pricing -- giving field teams real-time geographic visibility into client performance.
- Built automation frameworks with Batch Apex, Flows, and asynchronous processing, cutting manual processing effort by ~40% and improving operational throughput.
- Delivered 3 enterprise REST API integrations including a PCI-conscious payment gateway, enabling secure real-time transaction processing.
- Configured custom objects, junction objects, security models, sharing settings, and approval processes, and maintained CI/CD pipelines across multiple orgs using GitLab -- improving data quality, governance, and release reliability.

Salesforce Developer, Wipro Ltd.

Jun 2019 - Apr 2022

Bangalore, India

- Built an Order Management & Discounting module in Sales Cloud for a pharmaceutical client, supporting order-processing workflows for 1,000+ sales users.
- Developed Salesforce solutions using Visualforce, Apex, Triggers, Workflow Rules, and Approval Processes, automating business processes and reducing manual effort by ~40%.
- Designed 20+ reports and 15+ interactive dashboards (Matrix, Joined, gauges, charts), giving stakeholders self-serve visibility into sales performance.
- Optimized application performance through governor-limit management and reusable, secure coding practices, and managed deployments via Workbench and ANT -- achieving releases with zero critical deployment failures.

EDUCATION

B.Tech, Electronics & Communication Engineering - Institute of Engineering and Management, Kolkata - 2019
