SUMMARY

Senior Salesforce Developer with 7+ years architecting scalable, customer-facing platforms and enterprise integrations across healthcare, finance, and automotive sectors. Deep expertise in LWC, Aura, Apex, Triggers, Flows, and API-led integration, with hands-on AI-driven automation using Salesforce Agentforce. Adept at turning complex, ambiguous business problems into reliable, high-performance systems at scale. 5x Salesforce certified.

EXPERIENCE

Volvo Group India Pvt. Ltd.

Sep. 2024 – Present

Senior Salesforce Developer

Bangalore, India

- Independently built an **AI-powered Account Insights agent** using Salesforce Agentforce and Prompt Builder, auto-summarizing 10 critical account dimensions and reducing manual account-research time for sales reps
- Architected and shipped the **Control Center single sign-on (SSO) portal** from scratch, unifying Customer Portal, Service Marketplace, Parts, and Aftermarket apps into one login serving **10,000+ dealers and customers** globally
- Improved release reliability across the CRM platform, **reducing post-release defects by 60%** while sustaining **90% Apex test coverage**, by building 25+ production LWC, Apex triggers, and Platform Event-driven automations used by 10,000+ users
- Drove the Volvo Trucks CRM launch across **40 global regions**, owning data migration, security configuration, user access, and release activities with **zero critical launch defects**
- Designed a reusable Apex framework and shared utility library, standardizing logic across 25+ components and accelerating sprint delivery

Accenture Solutions Pvt. Ltd.

Apr. 2022 – Sep. 2024

Salesforce Developer

Bangalore, India

- Engineered a reusable **Apex REST framework for real-time cross-org data synchronization**, sustaining **99.8% uptime over 24 months** and **10,000 transactions/day** across 3 Salesforce environments
- Led development of a **Google Maps-integrated Lightning feature** surfacing store locations, sales performance, and pricing, giving field teams real-time geographic visibility
- Delivered 12+ LWC, Aura, Apex, Batch, and REST components at **90%+ test coverage**, simplifying complex business processes
- Built automation frameworks with Batch Apex, Flows, and asynchronous processing, **cutting manual processing effort by 40%**
- Delivered 3 enterprise REST API integrations including a PCI-conscious **payment gateway** enabling secure real-time transactions

Wipro Ltd.

Jun. 2019 – Apr. 2022

Salesforce Developer

Bangalore, India

- Built an **Order Management & Discounting module** in Sales Cloud for a pharmaceutical client, supporting order-processing workflows for **1,000+ sales users**
- Developed solutions using Visualforce, Apex, Triggers, Workflow Rules, and Approval Processes, automating business processes and **reducing manual effort by 40%**
- Designed **20+ reports and 15+ interactive dashboards** for self-serve stakeholder visibility into sales performance
- Optimized performance via governor-limit management and secure coding, achieving releases with **zero critical deployment failures**
